

Please reject NAB's petition 04-160. I have subscribed to XM Radio for 3 years now and the addition of the traffic and weather are great additions. They give me instant access to weather and traffic that I can receive instantaneously. I do not receive such service from any local radio station, which is why I pay for this premium service. I am provided these services for a fee and no one else should be able to tell me what I can be permitted to hear. Thank you.
